### ***"Kid of the Game"***

Every Wednesday night home game, a member of The Columbus Clippers "MVP Club" will get a chance to be the "Kid of the Game." This lucky member will get to record the starting line-ups for both The Columbus Clippers and their opponent that night. They will also get to announce the Clippers as they come up to bat during the first inning!

The "Kid of the Game" will get to sit in on the Clippers batting practice and get to interview one of the players! The interview will consist of five questions that the "Kid of the Game" thinks up. It will be shown on the video board (if applicable) during that night's game and also put on the website for everyone to see!

To be considered for the Clippers "Kid of the Game" you have to be a "MVP Club" member!!
